AEV spol. s r.o. KROMĚŘÍŽ
ELECTRONIC DEVICES FOR AIRPLANES AND CARS

LED LAMP

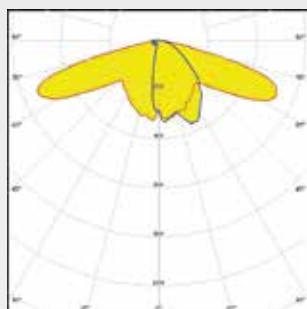

Save an energy and increase the traffic safety by using of the right street lighting. With our autonomous technology you will have an overview of all lighting in the city. The usage of LED technology leads to reduction of energy costs, to increase the safety at crossroads, crosswalks and clarity on car parks. Street lighting can be your first step toward SMART CITY.
